## Basic Trail Description

This beautiful, highveldt add on trail is situated on the Lindequedrift road R54 to Potchefstroom, ± 41km from Vanderbijlpark.

### Valley trail - day 1

Passes through savanna, over the mountain with beautiful indigenous trees, back to the Luxurious base camp.

### Summit trail - day 2

The hiker starts the hike through a lovely indigenous bush onto the mountain, walking on top of the summit the hiker has a beautiful view over the whole farm. Walking silently, the hiker will come across different game species eg. Kudu, Eland and Blesbok.

- Other: (bridges, ladders, stiles, etc):* Safe
- Crossings (road/rivers):** n/a
- Emergency:**
- Escape routes:* Yes
- Telephone/cell:* Yes
- Medical aid/evacuation system:* Yes

## Environmental Character

A **PRISTINE** environment depicts an area where nature still exists in its more-or-less pure form: clean drinking water in streams, indigenous vegetation and animal life with no trace of human constructions, activities or sounds nearby.

In a **NATURAL** environment one could expect to see and hear human activities to a limited extent; such as e.g. associated with farming and forestry. Exotic plants (e.g. pine plantations) might be prevalent; as well as cattle, fences and constructions such as earth dams.

To hike through a **RURAL** environment would imply close contact with rural development and its associated noise, crossing of public roads, hiking on forestry/ farm roads, visual contact with agricultural fields, cement dams, domesticated animals, etc.

A **SEMI-URBAN** environment will be typically an urban green belt or city park or similar where the built environment is adjacent to the trail and where the noise of vehicles and associated aspects of pollution will often be prominent.
